

Cert no. CU-COC-806106

How environmentally friendly is your organisation?

In 2007 TMG was awarded the FSC-certificate. Forest Stewardship Council (FSC) is a non-profit organisation devoted to encouraging the responsible management of the world's forests for the production of wood and paper. Public awareness of the environment is growing every day. Thanks to this FSC-certificate as well buying FSC-paper TMG can now print the FSC-logo on your flyers and brochures. This shows that your company is supporting responsible forest management.

Everything revolves around your satisfaction

small long: 8 pages: 15,5 x 29,7 cm portrait 2 flaps of 14,5 x 29,7 cm

Plough folding machine

TMG (Thijsen Media Group) presents it's new innovative folding machine. Added to an existing 16 page web press, this new plough folder offers our clients a whole spectrum of unique new products. This has enlarged TMG's product portfolio substantially. High volume runs of printing with a concertina, roll or gate fold can be produced easily inline, saving time. Beautiful flyers with extra flaps with perforated coupons can be made, fast and easy.

A5 landscape: Most of the above mentioned A4 formats can also be printed with the splitter cutting machine to create A5 landscape products. Let us advise you!

Splitter cutting machine

For many years TMG has used a special splitter cutting machine to enable us to produce special "little" products. The big benefit is not to use a binder to create these "little" products" but to produce them inline. This saves you much time and money and offers you different formats. This same web machine operates with a flying imprint unit which can create overprinting for all your store addresses, for example.

A5 landscape glued:

Page extent: 6 / 8 / 12 / 16 pages 20 pages	Format landscape: 21 x 14,5 cm (max 23,5 x 14,5) 18,5 x 14,5 cm	Paper gsm: 48-100 48-90
--	--	--------------------------------------
